received from 1) Shri M. R. Bir, Chairman, 2) Shri Mohan Virginkar, 3) Shri Srikant Karnat 4) Shri Chandrakant Kenkre. The replies given by them are one and the same.

The replies received from the members are not convincing nor they are relevant to the points at issue. The explanations received are more of a general nature and are based more on extraneous circumstances. The point at issue is why the store could not fulfill its obligations within the prevailing limits. It is no doubt that any institution or an organisation has to face numerous difficulties alert and aware to attend to them with much more zeal and perseverance. Taking this into account a realistic view was taken, which is contained in the audit note dated 30-6-66. Had the store acted on this fully and faithfully the working of the store could not have been reduced to such a state of affairs. The suggestions contained therein were of an administrative nature which could have been implemented if strenuous efforts were made.

The explanation given by the members does not indicate the deterioration in the financial position of the store, and had the office bearers, exercised appropriate and adequate supervision over the financial resources, the financial position would not have been reduced to this state. The very fact that the financial position was not placed before the committee of management in its monthly meetings is an indication that the office bearers were not very earnest about this. The usual arguments advanced for not placing the accounts were that the accounts are incomplete. And

even it was difficult for the audit machinery to examine the financial position and the general working of the store.

Large scale purchases were made and while making these purchase no financial discipline appears to have been adhered to nor an assessment was made whether the items so purchased have been disposed off before making fresh purchases. The stocks so purchased were not also looked after well nor steps taken to clear them as expeditiously as possible, before they show sign of deterioration and resultant loss to the store.

From the above facts, it is clear that the internal supervision and control over the working of the store was far from satisfactory and this vacuum is an indication of the obligation not fulfilled satisfactorily.

In the explanation so offered by the members, it has been made out that the department has not taken objections to the trends of the store's working. The members need not be obvious of the fact that the store is democratic institution and it has to function on democratic lines. And the department had tried to render advice and assistance from time to time either through the audit note or through separate communication whenever found necessary. Had the store cooperated with the advice so given the matter could not have worsened. The department always tried to ensure that no day to day interference is made to the internal working and only when the situation goes out of the gear, the department tries to step in and intervene. In this particular case the member may also be aware that all sided assistance was given viz., administrative and financial, nature.

It is thus evident from the aforesaid facts, that the present committee of management had not risen to the occasion and its consistent defaults in the various aspects of working and more on the internal side, has resulted in bringing the working to a utter stage of confusion. There is no homogeneity in the present committee of management as some of the members have resigned and continuance of the present committee of management will not serve any pur-

pose and will only aggregate the situation, which is not in the best interest of the institution and also general prospects of the Cooperative movement. Therefore, I remove the members of Committee of management and pass order as under.
